

CLIMATE CHANGE IS HAPPENING NOW.

TOMORROW NEEDS US TODAY.

Support IISD to help countries build their resilience to the impacts of climate change.

ADAPTING TO A NEW REALITY.

THE INTERNATIONAL INSTITUTE FOR SUSTAINABLE DEVELOPMENT (IISD) is a global think tank working to create a sustainable future in our changing climate. With a focus on helping people and the planet make progress, we work because the world needs our action.

Governments rely on their **National Adaptation Plan (NAP)** to make their communities, ecosystems, and economies more resilient to the impacts of climate change.

The NAP Global Network works with partners in the world's most vulnerable countries to develop and implement these plans for a more secure future. Established in 2014, its secretariat is hosted by IISD.

JOIN US.

Support communities around the world who are working to secure their livelihoods and futures in a changing climate.

**NAP

Network**

WHY WE NEED

ADAPTATION PLANNING.

Often underfunded and overstretched, the governments of developing countries need help to protect their citizens from a crisis not of their making. To name a couple...

In **ETHIOPIA**, with our support, the government is better positioned to implement social protection systems, introduce climate-smart agriculture, and improve access to potable water, while promoting gender equality.

In **COLOMBIA**, people fight every day to survive heatwaves, floods, and new diseases. We work with the government to pilot early warning systems that lessen the impact of heavy rains and drought on household water supplies and sewage systems.

PLEASE SUPPORT THE NAP GLOBAL NETWORK

THE NAP GLOBAL NETWORK WILL CONTINUE TO MAKE A DIFFERENCE

Over 120 developing countries *have started adaptation planning and urgently need continued support.*

40
countries have
received technical
assistance

2700+
people have been
trained on climate
change adaptation

200+
government institutions
have strengthened capacities
in adaptation planning

**TODAY, THE NAP GLOBAL NETWORK CONNECTS OVER
1,200 PARTICIPANTS FROM MORE THAN 140 COUNTRIES.**

FROM KNOWLEDGE TO ACTION

We provide the resources and opportunities needed by governments to move forward with their vision for climate resilience. Our support includes:

- **EMBEDDED EXPERTISE:** Ensuring that our partners have the knowledge and skills they need to effectively adapt.
- **LEARN ABOUT THE MOST EFFECTIVE SOLUTIONS:** Bringing government actors from different countries together to learn about the most efficient practices for their situation.
- **TARGETED ANALYSIS:** Supporting evidence-based decision-making.
- **OPERATIONS AND COMMUNICATIONS:** Providing hands-on support when needed to help strategize, implement, and communicate adaptation actions.

THE TIME TO ACT IS NOW HELP US RAISE \$5 MILLION.

We work with countries that contribute **the LEAST** to global emissions, but are **the MOST** vulnerable to the impacts of climate change.

THERE'S A NEW SENSE OF URGENCY AND THESE COUNTRIES NEED YOUR SUPPORT

“

“Climate hazards are nothing new, but our ability to respond has been stretched due to their increased frequency, ferocity, and impacts.”

- JANEEL MILLER-FINDLAY, Director, Ministry of Finance, Economic Planning, Sustainable Development and Information Technology, Saint Vincent and the Grenadines

“Climate change is a pervasive issue affecting every aspect of Fiji’s development. Consequently, we support all Ministries and Departments to mainstream climate change concerns into their work.”

- SHIVANAL KUMAR, Ministry of Economy, Fiji

FOR HEALTHIER ECOSYSTEMS AND SECURE LIVELIHOODS.

CLIMATE CHANGE is impacting all aspects of life.

We work with different themes to make sure a country's NAP addresses every major issue caused by climate change.
